There were thirteen proposals to sell bonds to the government the total amount offered being \$2,342,100, at prices ranging ex-coppon from 113.86 to 114.94. The purchase, which was only \$500,000, was made at 113.36 a 113.46. Next week the government will buy a million of five-twenties. THE FOREIGN MARKET.

The recent decline in British consols was, as we new know, the discounting of the present crisis in the English Ministry. To day the London quotations were steady for consols and about 14 lower all around for United States bonds. This decline in American securities is undoubtedly due to the election of Mr. Boutwell to the Senate and his conse quent expected retirement from the Treasury cretaryship, the change of a Finance Minister being quite a grave matter in Europe. Further nore, Mr. Boutwell was widely known as a reducer of the public debt. Erie shares were strong, and after an advance of fully one per cent left off at a little reaction, closing 52%, equivalent to just about 65% in our currency. French rentes declined in the ferencon, but recovered partially and closed MONEY SCARCER.

The money market was more active, and the de mand continued up to the last moment of banking ours. Early in the day the quetation stood 1-64 and interest to 1-32 as the rates on call among the stockholders, with an occasional renewal at 7 per pent coin. As the day advanced the market hardsned to 1-32 and interest, and just at three o'clock some late borrowers, who make it a rule not to keep their banks waiting, secured their money at 1-16. Commercial paper was neglected and nomi nal at 9 a 12 per cent discount for prime names Foreign exchange was lower at the desk, the lead mg bankers having reduced their asking rates to for sixty day sterling and 108% for sight bills out the market was weak at these figures, and ac tual business was transacted at a concession of %

of the quotation, viz.-115 a 115%; the opening price being 115%, and the closing 115%. An early advance to 115% was based upon the announcement of Secretary Boutwell's election to the United States Senate and the confirmation of the report that he had begun to use the \$44,000,000 of legal tenders, his wants having forced him to issue about \$1,500,000. Subsequently the market re-ceded to 115 on a rumor that Judge Richardson would be appointed Secretary of the Treasury pro-tem. only, and that an entirely new man might yet be selected by the President and Senate to succeed Mr. Boutwell eventually. With the reassertion,

The railroad bonds were rather more active, the gradual relaxation in money bringing in buyers features, such as the Union Pacifics, which were about steady. STOCKS DULL AND LOWER.

The stock market displayed less activity, if we except a brief spell about midday, when it was moderately animated in consequence of the announcement of Secretary Boutwell's issue of a portion of the se-called legal tender reserve, the news coming about the same time that he had this period the best prices of the day were made their attainment being the climax of a reaction from a decline and heavy feeling in the early forenoon. to 58. Reck Island, which was less enthusiastically supported by the parties who wish to lease it to the Pennsylvania Railroad, receded to 115% and Western Union drooped to 86. Meantime exceptional strength had been shown by Lake Shore, which advanced to 35% and held its ground to the close. Erie was firmer, in sympathy with the im-provement in London, and C., C. & I. C., which the buyers took regular way or sixty days indifferently, at the same price, advanced to 42%, but fell on % at the close. An active demand for St. Paul was a feature of the early Board, with sales at as high as 55%, "buyer sixty." In other respects the general market was steady. In the invest-Hartferd and Erie was quiet at a slight advance.
